490 GRAND SEDAN STANDARD EQUIPMENT

CONSTRUCTION

- Hull hand laid using woven rovings and glass resin incorporating 2 layers of Vinylester (Osmosis protection) via traditional methods.
- Hull painted in FGI white Polyurethane to resist UV fading.
- Deck and superstructure built using Polyester via traditional methods
- Deck and Superstructure Painted in FGI white to resist UV fading
- Rubbing strake in D section at water level with 316 stainless steel inserts
- Mid height hull in D section for protection of hull sides with 316 stainless steel inserts
- Full length keel at part of hull mould protecting rudder and prop with sacrificial rub strip.
- GRP rudder on Stainless steel rudder stock
- Water-tight bulk heads between forward cabin and engine room, engine room and aft locker

HULL AND DECK HARDWARE

- Anchor platform with large roller
- 60 Lb plough anchor with 60 metres of 10mm short link chain with swivel
- Bow stainless steel cleat 300mm
- Two off Bow stainless steel cleats with fairleads protection to hull.
- Two curved aft Stern cleats 250mm
- Two mid-ship cleats 300mm
- Three lightly tinted bonded and toughened windscreens
- Helm windscreen with wiper and fresh water wash
- Two non-opening ¼ tinted windows bonded and toughened
- Four front cabin opening hull windows
- Opening overhead deck lockable hatch centrally over owners cabin
- Opening overhead deck lockable hatch mounted forward and central near helm
- Opening guest cabin window with flyscreens
- Opening toilet room window with flyscreens
- Slide opening tinted windows in aluminium frames
- Rearward slide opening helm door with key locking
- Electric horn mounted to mast in stainless steel
- Moulded in FRP non-skid on all walk surfaces
- Full height bow deck rails with extra Mid rail in stainless steel
- A stainless steel flag/burgee pole mounted to bow rail
- Full height side deck rails with extra Mid rails in stainless steel
- Quick opening Port and Starboard side rail for side access
- Transom door opening outwards to Starboard
- Teak varnished cockpit top rail with opening to Swim platform
- Side engine room vents, fridge vent in stainless steel
- 5 Deck fill ports both port and starboard in stainless steel
- Side stainless steel vents for fuel, water and holding tanks
- Quick Anchor winch 12 volt 1200w 10mm gypsy and rope gypsy
- Twin deck protected buttons with helm remote
- Anchor chain deep lockable locker suitable for 80m or more of chain plus tap for deck wash

- 240v Shore power water proof screw plug at Starboard cabin side
- Navigation lights Port Starboard, Stern, Steaming and Anchor
- Tee mast with quick fold hinging incorporating positions for lights, horn and optional radar
- VHF aerial mounted to cabin top
- Lightning strike earth grounding system mounted to Tee mast
- Sustainable sourced solid Teak Swim platform mounted to transom
- large folding stainless steel swim ladder
- Swim shower Hot and Cold fresh water mounted in transom
- Sustainable sourced solid Teak cockpit flooring
- Cockpit drain scuppers moulded into cockpit seating
- Starboard cockpit seat 200 litre insulated and self-draining Ice chest
- Full width under floor cockpit locker with lockable twist handle
- Storage for convertible saloon and cockpit table bed cushions

ACCOMMODATION SALON TO STARBOARD AFTWARD

- L shaped saloon seating covered in Premium Ultra leather or similar material
- Twin leaf varnished dining table in Burmese Teak
- Dining table conversion to double berth with support legs
- Under seat storage with side access hinged doors
- Dedicated teak venting and area for optional heat/ Air conditioning systems
- Overhead 12 volt LED lights mounted in acoustic vinyl headlining

GALLEY TO PORT AND STARBOARD AFT

- Two Top hinged Stainless steel Hooper glass doors on gas struts and safety catches to open the galley/saloon to the cockpit area
- Full slide away lower stainless steel and glass door with locking position open or closed
- 3 deep solid pull out draws with one button locking
- Glass top 2 burner 240 volt cook top with safety switch
- Overhead cabinet for microwave
- 2 over head wall cupboards with side hinged doors with one button locking
- Solid bench tops in Corian available in choice of colours
- Twin stainless steel sinks with drain capture baskets
- Designer hot and cold mixer tap
- Sink covers to increase bench space
- In countertop pantry or appliance storage
- Large under sinks cupboard
- Waeco 140 Litre fridge with incorporated freeze unit mounted into starboard galley cabinetry
- Large cupboard to port with shelves design to fit optional 2nd Waeco 140 litre fridge/freezer
- Hinged on gas struts 3 insulated floor access doors for engine room access
- Removable support beams for complete engine access
- Overhead LED 12 volt lights mounted in acoustic vinyl headlining
- Hinged smoke glass door to auto lit 12 volt panel and switches

GUEST CABIN FORWARD

- Island bed with covered high density foam mattress
- 1 under bed pull out roller sliding draws with one button locking
- 2 bed step shoe lockers
- 1 hinged door hanging lockers with auto light and cedar linings
- 2 bed adjustable reading lights
- 2 Opening hull windows with curtains
- Teak and holly flooring
- Under bed access to bow thruster battery and reserve stainless steel water tank
- Master switch on bed side for thruster battery
- Overhead LED 12 volt lights mounted in acoustic vinyl headlining
- Access panel to water tank shut valve
- Access floor panel to forward bilge
- 2 shelves with retainer rails
- Vent for optional A/C Heater
- 240v double power point

HALL WAY

- Teak lined panelled
- Teak and holly flooring
- Access lift panel to bilge
- Removable three steps to saloon
- Manual bilge pump with handle
- Y valve control for manual bilge to engine room and forward bilges
- Varnished handrail at steps
- Main switch panel controls under stairs
- Bi folding door way with magnetic catch to toilet area and enclosed shower
- Sliding door way to Guest cabin

OWNERS CABIN TO STARBOARD

- Teak lined panelled
- Overhead LED 12 volt lights mounted in acoustic vinyl headlining
- Teak and holly flooring
- Double bed
- Bed adjustable reading lights
- Opening windows with curtain
- Two deep hanging lockers with one button locking doors
- 2 under bed pull out roller sliding draws with one button locking
- Ample under bed lined storage
- 240v double power point

SHOWER ROOM

- Accessed via toilet room through a sliding Bi folding opaque door
- Adjustable shower rose on flexible hose
- One touch hot and cold mixture tap
- Shower sole with non-skid in GRP
- Removable Teak floor grate
- Stainless steel shower drain to auto switched pump out
- 12 volt switched steam extractor fan
- Built in shower seat
- Shower seat lifts up for dry storage

490 GRAND SEDAN STANDARD EQUIPMENT

- Cupboard for storage with one button locking
- Overhead LED 12 volt light

TOILET AREA

- Sole with non-skid in GRP
- Removable Teak floor grate
- Vanity with Corian top available in choice of colours
- One touch hot and cold mixture tap
- Ceramic wash basin with built in plug
- 12 volt switched extractor fan
- Hinged door to under vanity storage and hull ball valves
- TMC electric flush household sized toilet macerator type
- Water proof flush switch
- Large wall mirror
- Holding tank level warning unit
- Y valve for holding tank/overboard control
- Overhead LED 12 volt lights
- 240v double power point

HELM STATION

- Wide Helm seat covered in Ultra leather or similar material
- Hidden under seat storage
- Hinged smoked glass door to lit 240 volt panel and switches
- Capilano steering head with Stainless steel steering wheel 22"
- Angled foot rest built in to helm access panel
- Quick Control joystick for bow and stern thrusters
- Shore power trip switch panel
- Black dash panel lower and upper (other colours available)
- Engine instrumentation oil, temperature, voltage. Plus audible warning and warning lights.
- Engine start stop buttons and ignition key
- Water and twin fuel gauges
- Rocker switches for windscreen wash, wiper(s) and horn
- Curved helm coaming covered in Ultra leather or similar material
- Ritchie Magnetic compass mounted on helm coaming
- Morse cable twin controls Forward/reverse and throttle
- Above helm dedicate panel with VHF and Stereo system
- Remote control for anchor winch
- Overhead 12 volt lights mounted in acoustic vinyl headlining

COCKPIT

- Wide shaped cockpit seating to port, stern and starboard
- Twin leaf varnished dining table in Burmese Teak
- Cockpit table conversion to double berth with support legs
- Fresh water deck wash tap
- Under seat storage
- Emergency steering access panel
- Optional camping covers with walkway zip down clears

MECHANICAL ENGINE ROOM

- Hard wood engine bearers laminated to hull and main

- ring frames
- Single Cummins QSB6.7 480HP engine with fresh water cooled via heat exchanger
- Isolated engine drip sump to prevent oil spills
- Hydralift Wet box muffler exhaust system
- ZF gearbox with cable hydraulic control
- Twin fuel tanks mounted port and starboard with built in sumps and drain tubes
- Fuel tank sight tubes
- Racor twin fuel filter systems with water separation and bypass ball valves
- Fuel manifold Valve system for control of fuel feeds, return and bypass.
- Engine mounted via four insulating mounts
- Stainless steel propeller shaft
- Bronze 5 blade propeller
- Premium PSS dripless stern gland unit
- All through hull fitting supplied with labelled bronze or stainless steel ball valves and skin fittings
- Engine room floor lined with removable non-skid flooring
- Ceiling lined with sound and vibration insulation
- Engine sea water strainer with glass inspection
- Generator sea water strainer with glass inspection
- 120 Litre black water holding tank with removable inspection port
- TMC 12 volt macerator pump with Y valve for deck drain or hull outlet
- Jabsco 12 volt fresh water pump with built in filter
- Jabsco 12 volt water transfer pump from secondary tank to main water tank
- Accumulator unit for fresh water system
- Jabsco 12 volt deck wash pump with built in strainer
- Engine room lowest point bulge with auto bulge pump and high water alarm
- Quick 40 litre hot water unit 240 volt or engine heated
- Engine room blower and air intake vents
- Onan 9.5kw 50hz GenSet with separate fuel valving
- Batteries for engine, house and GenSet in labelled GRP battery boxes
- Rule 2000 automatic bulge pump with float switch

OWNER'S CABIN / HALLWAY

- Rule 2000 automatic bulge pump with float switch
- High level water warning float and switch
- Shower sump with Rule 800 automatic pump with built in strainer
- Quick 4hp Bow thruster
- Stainless steel secondary water tank with ball valves
- Thruster battery with isolation switching

AFT COCKPIT LOCKER

- Capilana Hydraulic steering ram
- 2-1/2" Stainless steel rudder stock
- Victron 40amp smart battery charger
- VSR charging relays
- Quick 4 hp Stern thruster
- Stern thruster battery in GRP battery box
- Battery 12 volt isolation switch
- Stainless steel water tank with sight tubes
- Cockpit hatch drain 25mm drain

- Teak handled emergency steering arm
- Floor lined with removable non-skid flooring
- Rule 2000 automatic bulge pump with float switch
- High level water warning float and switch
- Manual bilge pump for aft bilge

ELECTRICAL SYSTEMS 12/240V 12 VOLT

- 12 volt powered by two 150 Ah house batteries, charged by either engine alternator or on board battery smart charger
- Engine starting via isolated 12 volt system using one 150 Ah starting battery
- GenSet starting via isolated 12 volt system using one 150 Ah starting battery
- Quick 8 hp Bow thrusters with separate 12 volt system using one 150 Ah battery
- Quick 8 hp Stern thrusters with separate 12 volt system using one 150 Ah battery
- Jabsco water pump with accumulator and filter
- A separated 12 volt switch panel with individual breaker switches
- All lighting via 12 volt system using LED bulbs where possible
- Raymarine VHF radio or similar
- Fusion stereo, with docking pod, and Bluetooth
- LCD TV with inbuilt DVD and USB input
- 2 cockpit ceiling mounted speakers
- 2 saloon ceiling mounted speakers
- "Fail safe" 12 volt jump switching for starting engine if battery fails
- "Fail safe" 12 volt jump switching for starting GenSet if battery fails
- 3 Electric bulge pumps with float switches one in each water tight compartment
- 3 high level warning floats with audible alarm one in each water tight compartment
- 4 bright engine room lights switched, plus 2 bright cockpit locker lights switched 240 volt
- Australian certified 240v system
- 240v switch breaker at helm
- Separated 240 volt switch panel with individual breaker switches
- 15 amp 25m Shore power cable with water proof deck screw plug
- Victron 120 amp smart charger, charges via VRS system to each 12 volt system.
- 240v double outlets, 1 in galley, 2 in saloon, 1 in owners cabin, 1 in guest cabin and 1 in toilet room
- Microwave 1000w mounted in galley cabinetry
